- Easy and intuitive experience

55’’ TOLED Transparent Screen

Click here for more details

Transparent O-LED screens (or ‘TOLEDs’) are a unique and futuristic feeling way to display apps or animations. They can made into touchscreens too, to allow for interactivity.

They can display an existing video, we can create a custom animation for one or display a custom touchscreen app for delegates to use to explore content and info.

Smart Window

Click here for more details

Our transparent displays are ideal for launching, presenting and promoting products by combining them with eye-catching, dynamic, digital content. We have both 22” and 23” size screens stocked and ready to make an impact at your next event and don’t forget, we cam supply the show-stopping content to go on it!

Touch Bars

Click here for more details

Infra-red bars turn any screen or any surface into a multi-touch and multi-user interactive latform. This is a great way to immerse users in your content and attract delegates.

For queries & bespoke tech and content requirements on any of these products, please contact us;

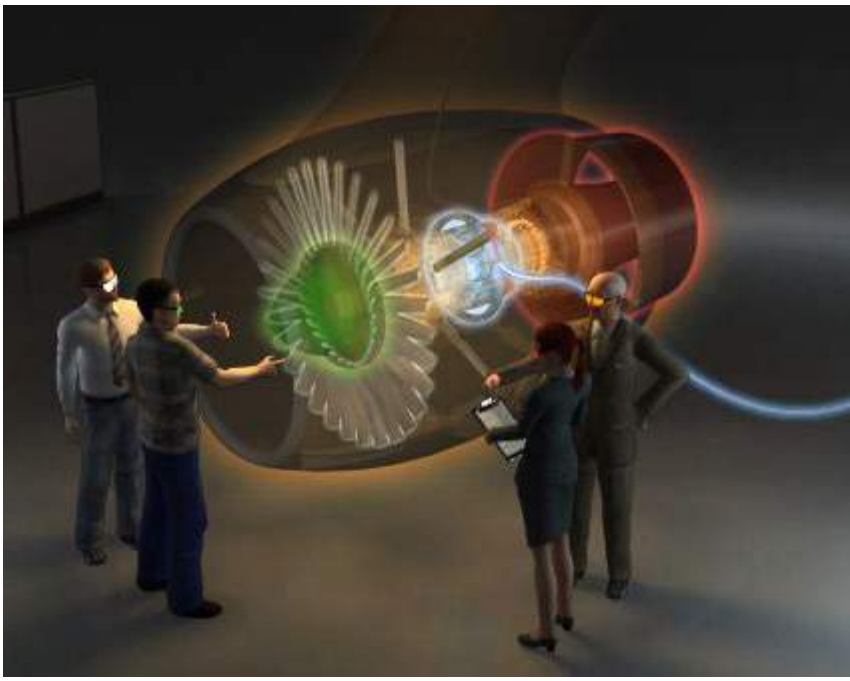
Virtual Reality

Click here for more details



Virtual Reality (VR) is currently one of the fastest growing markets, and is proving an extremely effective way to attract and enage visitors in an immersive experience.

We have a team of specialist VR developers dedicated to creating virtual reality experiences for some of the world's leading brands and design agencies. From easy-to-play games to attract footfall at exhibitions, to a room-scale aircraft hangar full of planes for aerospace manufacturers to showcase their latest innovations—we can create anything.

Augmented Reality

Click here for more details

Also known as Mixed Reality, Augmented Reality (AR) is the interactive experience of combining the real world with a virtual one. AR can be experienced in a variety of ways, using either a dedicated Augmented Reality headset, or through the screen of a tablet or mobile device.

Content Matters

Content can make or break an event. It is vital that you have the perfect content to showcase your image and your brand at an event. DBpixelhouse have been creating unforgettable, digital content for a variety of large and small brands to bring their vision to life on various digital mediums. Take a look at our contant library for inspiration, or get in touch to discuss AR, VR and the other endless ways we can make your stand unforgettable.

Service Charge

DBpixelhouse operates a service charge facility at many shows we attend and this document lays out what is and what is not included as standard.

WHAT IS INCLUDED IN YOUR SERVICE

- ✓ Pre-event administration
- ✓ Freight to and from the venue
- ✓ Delivery to your trade stand or booth area
- ✓ Installation using 'pool' DB technicians led by a DB Project Manger
- ✓ Testing, sign off & a copy of our onsite contact details
- ✓ Daily check (pre-open) including clean of screens and basic switch on assistance
- ✓ Our support team is onsite should you need us
- ✓ Dismantle, pack up and removal

WHAT ISN'T INCLUDED IN YOUR SERVICE

- ✗ Timed delivery and installation
- ✗ Dedicated event standby (available at extra cost, please ask your account handler)
- ✗ Working at height above 2m (available at extra cost, please ask your account handler)
- ✗ Working before 08:00 or after 20:00 unless previously arranged. It is not expected that we would start an install after 19:00
- ✗ Under floor cabling

Frequently asked questions...

I'm arriving in the morning/afternoon and only have a few hours to set up?

If you speak to your account manager in advance we shall endeavour to schedule the install to best suit your setup day; but timed deliveries are not possible. We can't leave equipment on your stand unattended either so if we do miss each other, the best thing to do would be to find our service desk.

How do I contact you when I arrive onsite?

We will have a service desk and/or a stores area onsite that is manned by our staff. It is usually located near the organisers office. If you can't find us please call 0345 226 3083 or grab anyone in a DB polo shirt on site.

My requirements have changed at the very last minute; can you help me?

Yes. We have spare equipment onsite & if you want something that needs to come from our warehouse we can make those arrangements & advise you of a cost and an ETA.

I would like you to attach the rental screen to the shell scheme wall?

You should immediately speak to the shell scheme contractor and ask them to reinforce the wall (with a 'pad') for which they will charge you. We can then attach the screen to the wall safely.

*NB Cable management can sometimes be a problem with shell scheme installs and our advice is to speak to your DBS account handler about this in advance. If the pad has not been installed when you arrive, you should speak with the shell contractor or hire a monitor stand from us. If a drawing/render or stand plan exists – we need a copy with your order.

When the show finishes can I leave straightaway?

You're responsible for the equipment until its safely collected so we only ask that if you wish to leave immediately the show finishes, you tell our onsite team and we'll make sure we collect your equipment in advance of others.
